SKILLS

Languages
Python, TypeScript, JavaScript, Dart, SQL

Front-End
Next.js, React, Flutter, Tailwind CSS, shadcn/ui

Back-End & Data
FastAPI, Node.js, Flask, Firebase / Firestore, Prisma, REST APIs

AI / ML
Multi-agent AI, RAG, LLM integration, Gemini, Vertex AI

Design
Figma, wireframing, prototyping, design handoff

Tools
Git & GitHub, Docker, CI/CD, Google Cloud Run

EDUCATION

B.E. Information Technology
St. Francis Institute of Technology, University of Mumbai
Expected 2027

ACHIEVEMENTS

1st Place, Colloquium 2025 — Itihaas heritage-tourism platform

Winner — SFIT IT Department Hackathon

Google GenAI Exchange — Hackathon participant (Karigar)

Social Media Head — IEEE SFIT

PROFILE

IT undergraduate who designs and ships real-world products end to end — from Figma UI for international clients to full-stack web and mobile apps in Next.js, React, Flutter, FastAPI and Node.js, with hands-on applied-AI work in multi-agent systems and RAG. Award-winning builder (1st Place, Colloquium 2025; SFIT IT Hackathon winner).

EXPERIENCE

UI/UX & Full-Stack Design Intern — 2026 – Present

Horizon View

- Design websites and product interfaces in Figma for international clients across the USA, UAE and other markets.
- Take client briefs from research and wireframes to high-fidelity UI and interactive prototypes.
- Deliver for healthcare, luxury car-rental, marketing-agency and creative-portfolio brands, adapting each to its audience.
- Hand off developer-ready designs, using full-stack experience to keep them practical to build.

Software Development Intern — Mar 2025 – Oct 2025

Voltic Amp Technologies · Mumbai · 8 months

- Built and maintained production web applications across front-end and back-end.
- Designed, tested and implemented features against real product requirements with the team.
- Improved UI responsiveness and usability; contributed to debugging and performance work.

UI/UX Designer — 2025

VEARME · Remote

- Designed interfaces, interaction flows and prototypes that guided front-end implementation.

PROJECTS

HeroBid — Flutter · Node/TS · Firebase

Real-time multiplayer auction and battle arena: bid on a 110-hero roster, build 5-hero squads, fight in a deterministic engine. Server-authoritative, anti-snipe bidding, ELO matchmaking, AR/VR hero viewing.

CyberQore — Python · TypeScript · Multi-Agent AI

Retrieval-grounded SOC copilot that turns raw security alerts into cited, explainable investigations with trust scoring.

Karigar — Gemini · Vertex AI · Cloud Run

GenAI marketplace assistant for Indian artisans (Google GenAI Exchange Hackathon): AI product storytelling, multilingual voice narration and an interactive heritage map.

ExamGEN — Next.js · FastAPI · Prisma

Automated exam-paper generator with admin/teacher dashboards, question bank and ML question classification.

VendorConnect — Flask · Deployed on Render

Sourcing platform for street-food vendors: verified suppliers, group ordering and a multilingual voice chatbot for low-literacy users.
